KEEP THE CHILDREN SMILING

"There is a time for play as well as a time for work. But even in play it is possible to cultivate the art of well doing. When this is done, instead of being a waste of time, play becomes a means of education.

"It is in all these ways that boys and girls are learning to be men and women and to be reverent to God."

—Calvin Coolidge.

## GUARANTEE

All equipment is guaranteed to be as represented and to give you full and complete satisfaction.

Established 1905

Incorporated 1912

This factory produces the famous Giant Products

(Printed in U. S. A.)

## Giant Playground Equipment

The material used in the manufacture of Giant Playground Equipment is strictly first class. All hardwood parts are varnished and dried thoroughly before packing. Metal parts are heavily galvanized. All our equipment is finished as near wear-proof and weather-proof as is possible to make it.

### Instructions for Erecting

With each piece of Giant Playground Equipment is enclosed complete instructions for setting up. These instructions are so plain that any average boy can readily understand them.

### Prices and Terms.

Production costs are carefully analyzed to assure our customers of a high grade product at a moderate price. Material fluctuations are carefully guarded against as much as possible by contract coverage. The wholesale net prices are printed in this catalog. These prices cancel all previous prices and quotations.

All equipment and apparatus is shipped F. O. B. factory. To organizations, schools, or persons whose credit is thoroughly reliable we extend payment of the account 30 days from date of shipment. 2% cash discount is granted if cash in full accompanies order.

### Weights

Because the crating or packing of the equipment varies considerable it is impossible to give the correct weights. Weights given are approximate shipping weights.

## Junior Stride

The Junior Stride is one of the most popular pieces of equipment on the playground. It is also one of the most beneficial forms of exercise. There is plenty of action, bringing into play every muscle in the child's body. The value of this form of exercise as a health builder is hard to estimate.

The Junior Stride has proven its dependability under the most exacting conditions... The ball bearing head is dust and water proof; the bearing runs in oil at all times. The chains have two aluminum grips to accommodate different size children. The stride is completely "hot galvanized," which makes a very durable, rust-proof and long lived piece of equipment.

No. JS-1—Junior Stride, complete as illustrated	26.60
Shipping Weight 80 lbs.	
No. JH-1—Junior Stride head and chains, no post	16.00
Shipping Weight 40 lbs.	
No. JP-3—Post only, 2½ in. by 10½ ft.	12.00
Shipping Weight 40 lbs.	

This catalog shows only our Junior line of playground equipment. We manufacture a complete line of heavy playground apparatus  
Write for our large catalog if interested.

### Junior Wave

The Junior Wave is an exact reproduction of our standard Giant Wave, that is giving satisfactory service in thousands of schools and parks. The only real difference is the size. The platform is hexagonal 7 feet in diameter, supported by six steel rods. The center post extends 7 feet 6 inches from the ground. The platform, inner guard rail and hand rail, are strongly built, to withstand rough usage. All metal parts are "hot galvanized."

No. U-28—Junior Wave, complete	\$67.33
Shipping Weight 300 lbs.	
No. US-28—Junior Wave, without post	50.67
Shipping Weight 200 lbs.	
No. UG-28—Junior Wave Post. One piece 3 in. pipe, 10 ft. long. Hot Galvanized	16.67
Shipping Weight 100 lbs.	

## Giant Portable Junior Slides

The slides in this series are the result of twenty-one years experience building slides. Every weak point has been eliminated; every objectionable feature has been overcome, until there is no better value in slides to be found today. The stairway, braces, and sides are select hardwood, finished in hot oil and varnished with best grade exterior varnish. The handrails and all metal parts are heavily "hot galvanized." The slides are furnished with a special non-rust composition steel bottom, which insures long and satisfactory service for outdoor use.

Prices on complete slides with straight chute as illustrated:

No. 400—4 ft. stairway, 8 ft. slide	\$22.60
Shipping Weight 75 lbs.	
No. 402—5 ft. stairway, 10 ft. slide	26.00
Shipping Weight 90 lbs.	
No. 404—6 ft. stairway, 12 ft. slide	35.67
Shipping Weight 100 lbs.	
No. 406—7 ft. stairway, 14 ft. slide	39.80
Shipping Weight 120 lbs.	

Prices on complete slides with Wave Chute.

No. 404½—6 ft. stairway, 12 ft. slide	\$41.67
Shipping Weight 120 lbs.	
No. 406½—7 ft. stairway, 14 ft. slide	46.47
Shipping Weight 130 lbs.	

## Giant Maple Bottom Junior Slides

These slides are of the same design as those shown on the preceding page except that the bottoms are rock maple. Some prefer a maple bottom slide, and where the slide is used indoors we highly recommend this type of slide bottoms. These slides are as good as can be built, and will give a long term of service.

Prices on complete slides with straight chute as illustrated.

No. 401—4 ft. stairway,	8 ft. slide	\$28.00
	Shipping Weight 75 lbs.	
No. 403—5 ft. stairway,	10 ft. slide	32.53
	Shipping Weight 90 lbs.	
No. 405—6 ft. stairway,	12 ft. slide	44.33
	Shipping Weight 100 lbs.	
No. 407—7 ft. stairway,	14 ft. slide	49.87
	Shipping Weight 120 lbs.	

This catalog shows only our Junior line of playground equipment. We manufacture a complete line of heavy playground apparatus.

Write for our large catalog if interested.

## Joyjym

The Joyjym is built to meet the great demand for an inexpensive portable outfit, suitable for either indoor or outdoor use. The Joyjym is 6 feet high and is recommended for kindergartens and home use for small children. It will not only amuse the children but will give them an unlimited amount of very beneficial exercise.

The Joyjym is strongly constructed of straight grained hardwood well braced and securely bolted. The galvanized chains on the trapeze and rings are adjustable, to accommodate children of different sizes. The frame and all wood parts are finished in hot oil and exterior varnish.

The Joyjym is packed with apparatus as shown, bolts, ground stakes, and instructions for setting up.

No. 20-J—Joyjym, complete, as illustrated.....\$23.33  
Shipping Weight 60 lbs.

### Boy Builder

The Boy Builder is an exact reproduction of the Joyjym shown on the opposite page, except that it is larger and heavier. An ideal outfit for rough service. The children will not outgrow it and the rugged, sturdy construction makes it long lasting and serviceable. An exercise frame of this type is of unlimited value to the children. It amuses them and keeps them out in the fresh air, all of which is constructive for good health.

The Boy Builder stands eight feet high with all dimensions increased in proportion. It will bear constant rough usage, by children of all ages. Packed complete with apparatus, bolts, ground stakes and instructions for setting up.

No. 22-J—Boy Builder, complete as illustrated.-----\$38.33  
Shipping Weight 100 lbs.

This catalog shows only our Junior line of playground equipment. We manufacture a complete line of heavy playground apparatus.  
Write for our large catalog if interested.

## Giant All Steel Special

This frame is the only steel frame shown in this catalog. The all steel construction, "hot galvanized" finish and roller bearings on all apparatus make it a durable piece of equipment. This outfit is not portable, but must be set in concrete. All the apparatus listed is interchangeable. By having two sets of apparatus, children of all ages can be provided for.

The frame and apparatus are listed separately, allowing you to choose the apparatus suited to your needs.

No. 20—Giant All Steel Special, frame only	\$53.33
Shipping Weight 400 lbs.	
No. 21—Trapeze, complete with roller bearings	6.67
Shipping Weight 20 lbs.	
No. 22—Swing, complete with roller bearings	13.33
Shipping Weight 25 lbs.	
No. 23—One pair Flying Rings with bearings	10.00
Shipping Weight 25 lbs.	
No. 24—Adjustable Horizontal Bar, complete	10.67
Shipping Weight 25 lbs.	
No. 25—See-Saw, complete with handles and fulcrum	13.33
Shipping Weight 100 lbs.	

(Note. It is necessary to order horizontal bar as see-saw support.)

## Giant All Steel Special Combination

This outfit as illustrated is a combination of the Number Twenty Giant All Steel Special frame, shown on the opposite page, and our regular heavy duty wave slide. The slide bottom is special non-rust composition steel. The all steel stairway is very strong and is heavily galvanized. Any of the apparatus listed on the preceding page can be used in connection with the slide. Select the apparatus you wish and order at the same time as the frame and the slide.

This is a big rugged, sturdy outfit and is as permanent as an outfit of this kind can be built.

No. 26—24 ft. wave slide, with standway, braces and handrails----- \$126.67  
Shipping Weight 500 lbs.

No. 27—20 ft. straight slide, with stairway, handrails and braces----- 106.67  
Shipping Weight 450 lbs.

This catalog shows only our Junior line of playground equipment. We manufacture a complete line of heavy playground apparatus.  
Write for our large catalog if interested.

## Little Giant Combination

The Little Giant Combination frame was especially designed to meet the needs of the small school or park. It stands eight feet high and is substantially made of best quality, straight grained hard wood. The type of bracing used on this frame, has proven satisfactory on Giant frames for years. The heavy galvanized chain used on the apparatus will give long and satisfactory service. The Little Giant Combination frame is painted red and coated with best grade exterior varnish.

Outfit consists of frame, apparatus as shown, bolts, ground stakes, and instructions for setting up.

No. 90-G—Little Giant Combination, complete as illustrated..... \$50.00  
Shipping Weight 300 lbs.

## Giant Ideal Combination

Combination frames are always popular on the playground, for the variety of recreation they offer. The Giant Ideal Combination outfit is a combination of the Little Giant frame and the regular Giant 8-16 slide. This combination while low in price is up to standard in quality, and gives very satisfactory service. The swings have the special Giant wide suspension feature, which eliminates all danger of swings striking. Three swings, and one pair of rings are furnished. The slide can be furnished in either the wave or the straight coaster. The entire combination is Giant red, and varnished. The Giant Ideal Combination is a very good outfit for the small school or park.

No. 90-G-5—Giant Ideal Combination 8-16 straight Slide----- \$100.00

Shipping Weight 500 lbs.

No. 90-G-5½—Giant Ideal Combination 8-16 Wave Slide, as illustrated 113.33

Shipping Weight 525 lbs.

This catalog shows only our Junior line of playground equipment. We manufacture a complete line of heavy playground apparatus.

Write for our large catalog if interested.

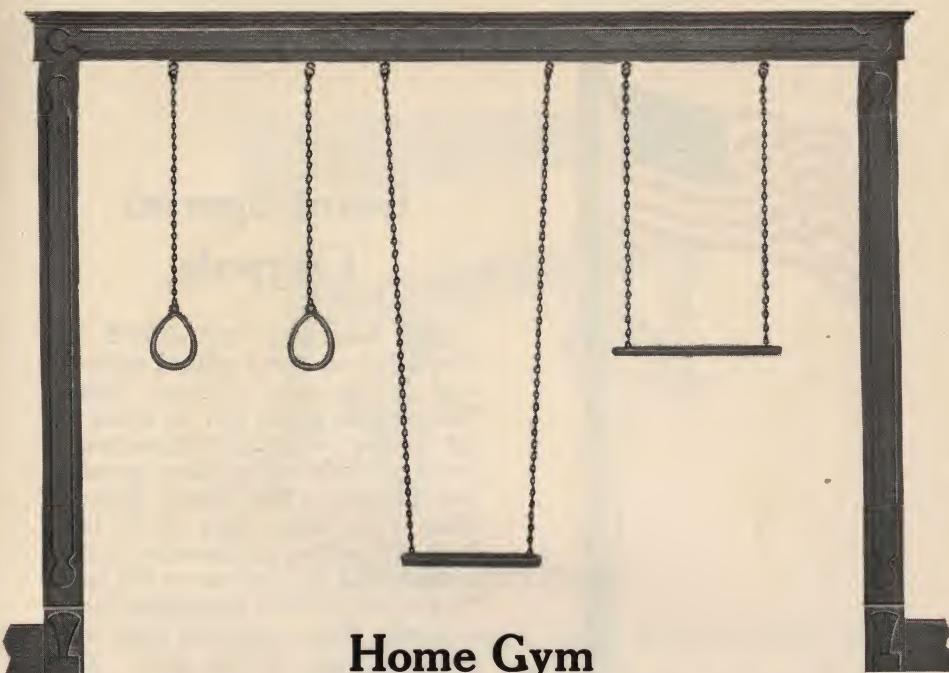

## Teeter-Tot

The Teeter-Tot is a combination see-saw and merry-go-round. The patented fulcrum allows the see-saw to tilt when used as a see-saw; or to revolve when used as a merry-go-round. There are no complicated fittings, to cause trouble and annoyance; or sharp corners to pinch fingers. The teeter-tot is nine feet long; straight grained hardwood; strongly reinforced under the center. The handgrips and fulcrum fittings are heavily "hot galvanized." Natural wood finish makes this a very attractive item.

No. T-14—Teeter-Tot, complete ----- \$10.00  
Shipping Weight 30 lbs.

## Home Gym

More and more are we coming to realize the value of regular exercise, in building and keeping health. It is impossible for the average family to have access to a gymnasium every day. With this in mind we are offering you the "Home Gym" outfit. The "Home Gym" is a complete home outfit. The whole family can use and enjoy it. The trapeze and rings are strong enough for Dad and the boys and the little folks always enjoy a good swing. Three complete units are furnished with screw eyes to fasten in doorways or floor joists in the basement. Give the family a "Home Gym" and keep them all healthy.

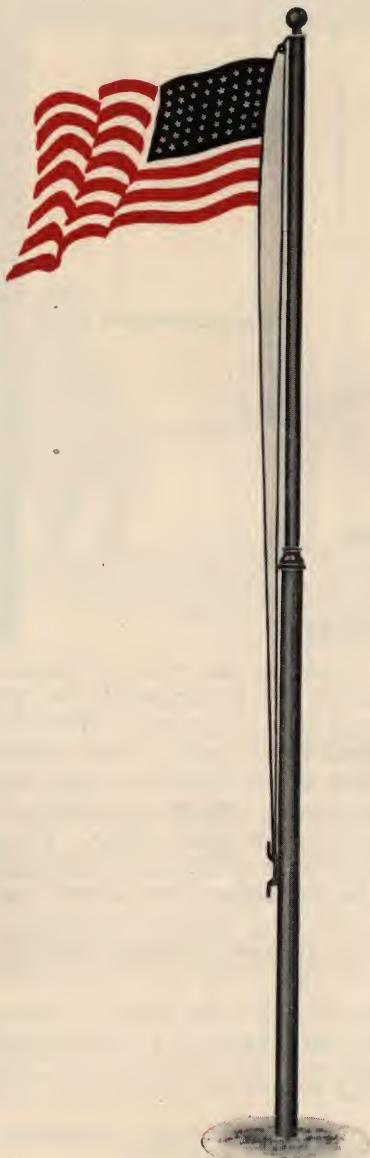

Outfit consists of swing, rings, and trapeze, complete with adjustable hooks, and screw eyes.

No. HG-5—Home Gym, complete, shipping weight 15 lbs.....	\$12.33
No. HG-4—Trapeze with chain and hooks, wt. 4 lbs.....	4.00
No. HG-3—Pr. rings with chain and hooks, wt. 5 lbs.....	4.67
No. HG-2—Swing with chain and hooks, wt. 6 lbs.....	4.33

This catalog shows only our Junior line of playground equipment. We manufacture a complete line of heavy playground apparatus  
Write for our large catalog if interested.

# GIANT PRODUCTS

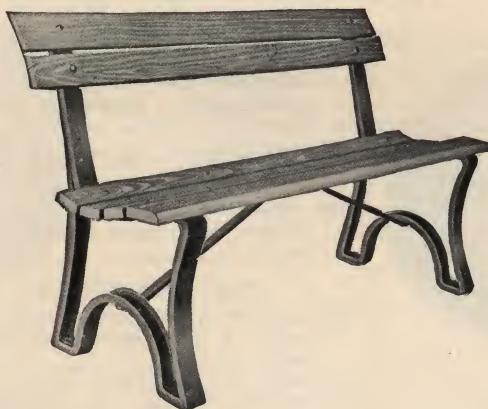

## Giant Special Flagpole

The American flag should be displayed on every school ground and in the yard of every home. Many states require it. In order to fly the flag properly, it is necessary to have a substantial, neat appearing flagpole. The Giant Special Flag Pole listed here is 25 feet high,  $2\frac{1}{2}$  inches in diameter at the bottom and  $1\frac{3}{4}$  inches at the top. The regular Giant telescoped joint is used. This makes the joint the strongest part of the pole. The hoisting apparatus is fitted with sheradized chain and will not get out of order. The entire pole is "hot galvanized." This flag pole is especially made and priced to meet the needs of the small school.

No. GS-18—Giant Special Flag Pole, 25 feet high with chain hoisting apparatus and anchorage complete ----- \$26.47  
Weight 125 lbs.

No. GF-5—Flag, good grade, bunting, fast colors, 3x5, price ----- 2.67

## Giant Settees

Every lawn, school ground, park, picnic ground or any place where there is need of benches should have Giant Settees. Thousands of them are in use by schools, State Institutions, fair, etc.

The one piece construction makes the leg and back very substantial. The back and seat are hardwood painted green. If used inside they can be finished in natural wood at no additional cost. All metal parts are heavily galvanized.

No. 4-C—4 ft. long, weight 40 lbs., each.....	\$5.93
No. 5-C—5 ft. long, weight 50 lbs., each.....	6.40
No. 6-C—6 ft. long, weight 60 lbs., each.....	7.73
No. 8-C—8 ft. long, weight 75 lbs., each.....	9.07

Giant Settees can be furnished with painted legs at the following prices:	
No. 4-CP	\$4.93
No. 5-CP	5.40
No. 6-CP	6.73
No. 8-CP	7.73

No. 8-C and 8-CP have three supporting legs.

This catalog shows only our Junior line of playground equipment. We manufacture a complete line of heavy playground apparatus.  
Write for our large catalog if interested.
